- + All taxes (17%, 10% green tax)

## TIGER ZOO

Tiger Zoo is a world-famous scuba diving site located just outside the harbor of Fuvahmulah Atoll in the Maldives. Unlike a land-based zoo, it is an underwater drop-off renowned for guaranteed, close-encounter sightings of wild tiger sharks year-round.

The site operates as a controlled environment managed by local dive centers:

- **High-Density Encounters:** Divers descend to a shallow plateau (typically around 8 to 12 meters) where multiple resident tiger sharks consistently circle and interact.
- **Unique Topography:** Positioned at the edge of the deep ocean channel, the site experiences nutrient-rich upwellings that naturally attract large pelagic marine life alongside the sharks.
- **Safety & Briefings:** Dive operations follow strict safety protocols, positioning divers along a designated ledge or reef line while divemasters monitor shark behavior.
